

# Box Wire Coils

(50 lb. or 100 lb. coils)

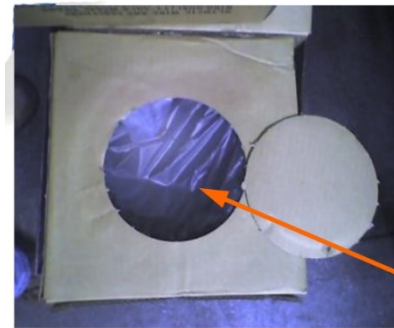

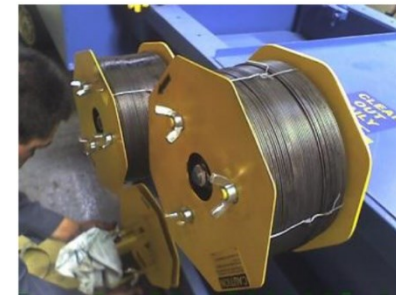

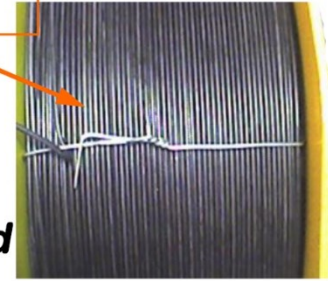

GAUGE	DECIMAL SIZE	LOAD STRENGTH	FEET per POUND
10 ga.	0.135	930 – 1,075	20.57
11 ga.	0.120	747 – 865	25.82
12 ga.	0.105	563 - 650	33.69

**TENSILE STRENGTH RANGES: 65,000 – 75,000 PSI**

Precision coiled and lightly lubricated to reduce abrasion. The highest quality baling wire in the industry.

- High Tensile C-1018
- Precision Wind
- Lightly Lubricated
- Coil Plastic Wrapped
- High Elongation
- 100% Guaranteed

Each coil of wire is individually protected by a plastic bag, preventing oxidization or rust
